

PIVOTroof®

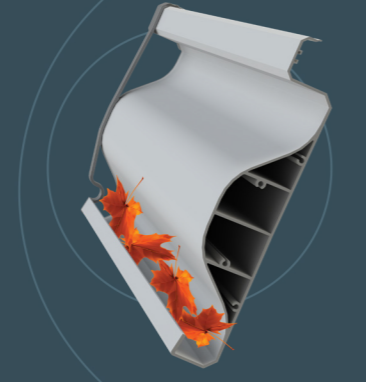

Tasarım patenti firmamıza ait olan **PIVOTroof** Alüminyum Panel Sistemleri, aynı anda olduğu yerde senkronize hareket edebilmekte ve güneş kırıcı olarak da kullanılabilir.

PIVOTroof PIVOTroof Aluminum Panel Systems that it's design patent of belongs to our company can move synchronously in same time in it's fixed place and can also be used as a sun breaker (sun protector).

Kendi ekseninde maksimum 135° açı ile açılarak hareket edebilen Eliptik tasarımı sayesinde dışarıdan gelen yaprak vs gibi yabancı cisimlerin mekana düşmesine engel olur.

Thanks to the elliptical design that can move as maximum 135° on its own axis prevent something like leaf and etc. fall into your area from outside.

Taşıyıcı görevindeki dikmeler, içindeki gizli oluklar sayesinde suyu tahliye etmeye yardımcı olur.

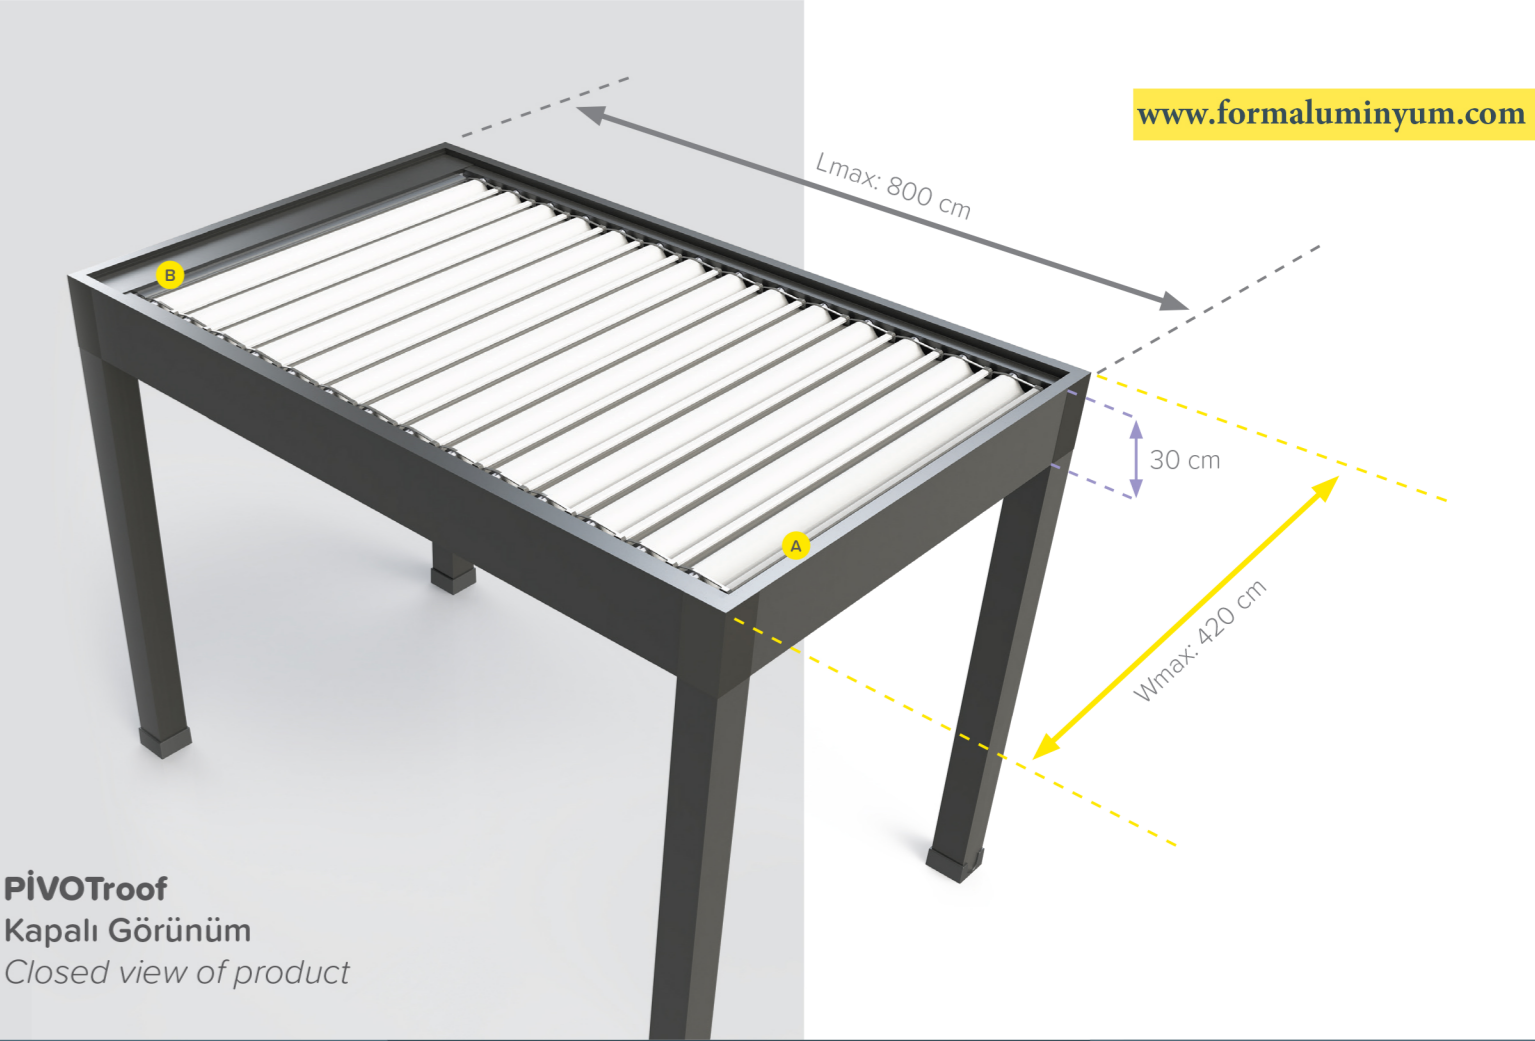

Thanks to the hidden gutters that is in carrier (structer) column in the front, water outlet is done.

Alüminyum Panellerin senkronize hareket ederek birbirini aynı anda kilitlemesi sayesinde paneller arası yalıtım sağlanmış olur.

Thanks to by moving synchronously the aluminum panels locking each other in the same time insulation of panels between is provided.
